WHAT'S NEW?

THE MATATAG CURRICULUM WALKTHROUGH

MATATAG TEXTBOOKS FOR THE SECOND PHASE

JOURNEY TO BE A DIGITAL-READY SCHOOL WITH GENYO E-LEARNING

DIWA

Innovation in Education

Diwa Learning Systems Inc. is the leading provider of print and digital educational resources in the Philippines.

Inspired by our goal to give education the attention it deserves, we help teachers accomplish their mission of nation-building; students become active contributors to the country's progress; and schools create a teaching and learning environment that defies any boundaries.

With the implementation of the MATATAG Curriculum, Diwa commits to help create rich teaching and learning experiences that will empower schools to become resilient and innovative learning hubs, support educators in their role of shaping the minds of each generation, and provide students with a strong foundation as they become nation-builders.

We are Diwa.
We make teaching and learning possible all the time, everywhere.

What's Inside?

PAGE 1

Diwa 5G

It is an innovative suite of educational resources that provides rich teaching and learning experiences for students and educators.

PAGE 2

MATATAG Curriculum 101

The first phase of the Department of Education's MATATAG Curriculum will be implemented this School Year 2025-2026. What are its features and objectives? How will it impact the teaching and learning communities as a whole?

PAGE 3

Diwa 5G Textbooks

Make teaching and learning more fun and engaging through our new textbook titles in compliance with the MATATAG Curriculum's requirements.

PAGE 14

Diwa 5G Magazines: Supplemental Educational Magazines

Provide fun and experiential learning to core subjects supporting the MATATAG Curriculum's requirements.

PAGE 18

Diwa 5G Systems: Genyo e-Learning

Unleash your school's full potential with Genyo e-Learning, a fully integrated e-learning platform with rich MATATAG Curriculum-based content.

PAGE 20

Diwa 5G Assessment: Checkbox

Checkbox is an adaptive online assessment portal that features a vast collection of gamified drills and activities in five major subject areas—all aligned with the MATATAG Curriculum.

MATATAG CURRICULUM COMPLIANT

Education. Evolved.

Diwa 5G is an innovative suite of educational resources that provides rich learning experiences for students, inspires creativity and productivity in educators, and amplifies the power of schools to change lives.

Engaging

They present concepts using various interactive content, augmented reality, and gamification to make a richer teaching and learning experience.

Flexible

They are designed to be used in various teaching and learning scenarios: classroom, distance, or blended learning.

Accessible

They are available in print and digital format, for online and offline teaching and learning.

Enriching

They are complemented with professional and personal development programs for educators and learners.

Relevant

They are aligned with the Department of Education's curriculum, compliant with quality standards, and appropriate to the Philippine context.

MATATAG CURRICULUM 101

The Department of Education launched the **MATATAG Curriculum** as a recalibrated K to 10 Curriculum under the K to 12 program. As Philippine education responds to this change, we at Diwa have transformed Diwa 5G into a comprehensive suite of learning resources that help you mold competent, job-ready, active, and responsible individuals.

1

What Are the Objectives of the MATATAG Curriculum?

- To decongest the overcrowded curriculum that resulted in compromised fundamental skills among learners
- To make learning competencies age-appropriate and properly sequenced in terms of progression
- To strengthen foundational skills like literacy and numeracy, and intensify values formation among learners

2

What Are the Main Features of the MATATAG Curriculum?

- Reduction of learning areas from 7 to 5
- Decongestion of learning competencies from 11,738 to 3,664
- Improvement of the progression of the learning areas
- New and reintroduced subjects to intensify values education and strengthen peace education

3

Starting School Year 2024-2025, the MATATAG Curriculum will be implemented in phases:

SY 2024-2025	SY 2025-2026	SY 2026-2027
KINDER	GRADE 2	GRADE 6
GRADE 1	GRADE 3	GRADE 9
GRADE 4	GRADE 5	GRADE 10
GRADE 7	GRADE 8	

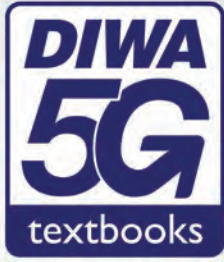

Diwa 5G is now the learners' and teachers' ready partners for the MATATAG Curriculum's phased implementation. With Diwa 5G, learners are provided with unlimited opportunities to make learning fun, engaging, and collaborative.

To know more about the MATATAG CURRICULUM,

visit www.diwa.ph/matatag or scan the QR code.

Diwa 5G Textbooks

**Innovative Learning:
Nurturing Problem-solvers
with Diwa 5G Textbooks**

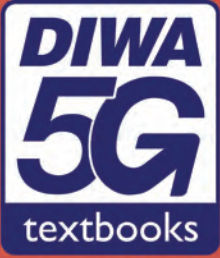

As the country's leading academic publisher, Diwa Learning Systems Inc. is passionate and committed to giving the best educational resources possible. We fulfill this mission by continuously innovating our products to adapt to the changing times. One of our efforts to innovate is integrating design thinking into our Diwa 5G Textbooks.

Design thinking is a solution-based and user-centric process in solving real-life problems. It is about building empathy to encourage thinkers to develop impactful solutions. Evaluating solutions is also fundamental here. Design thinkers can return to a prior stage or start again if a result did not come out as desired. Design thinking follows the steps— empathize, define, ideate, create a prototype, and test.

Our textbooks have been using the design thinking process in developing learners' competencies since the launch of Diwa 5G. They contain lessons that delve into societal issues and problems. They also have exercises to immediately assess students' understanding of social studies concepts. These features allow students to develop not just their creative and critical thinking skills, but also become empathetic to the world around them.

The design thinking process continues to be critical in our textbooks' content following the **MATATAG Curriculum** implementation. It is similar to a key requirement of the new curriculum, the engineering design process (EDP). Our textbooks, therefore, use EDP through design thinking. This includes science and the rest of the subjects.

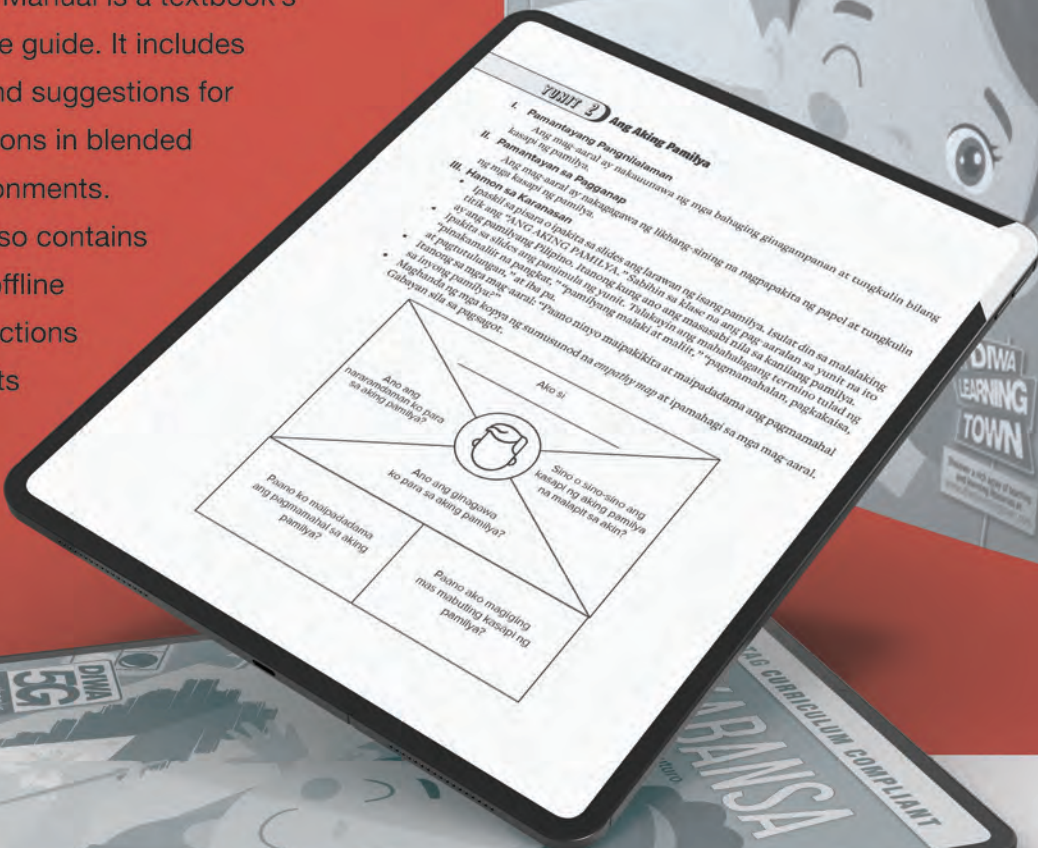

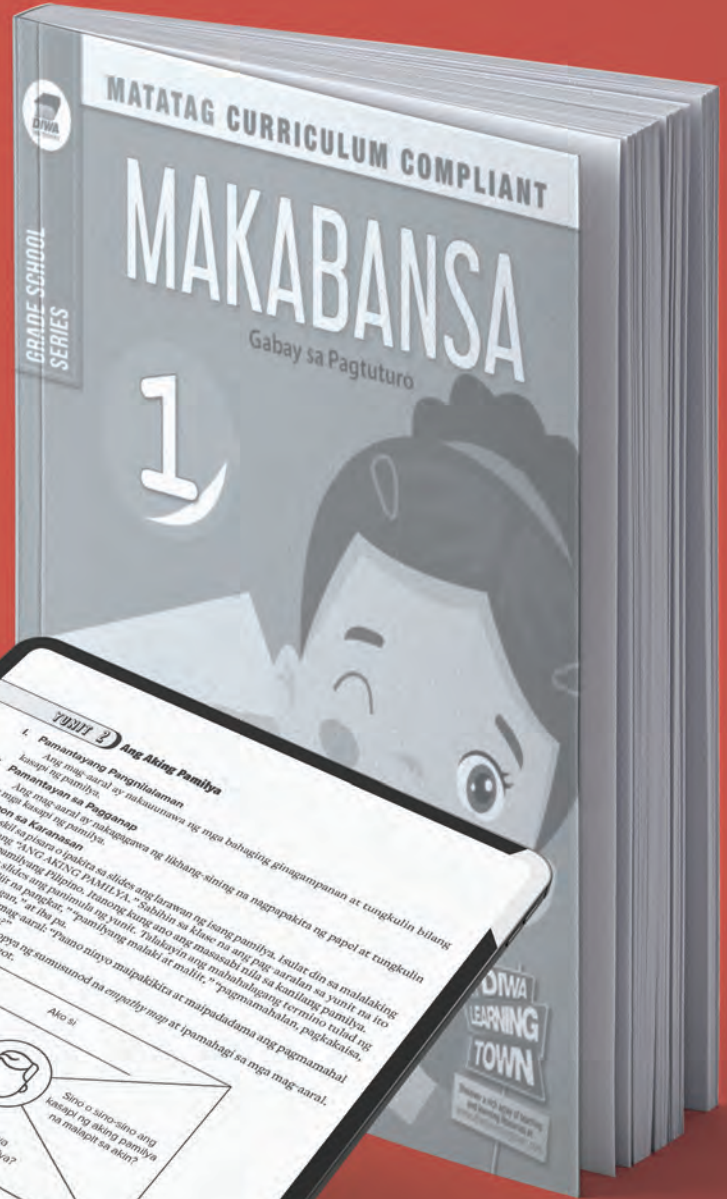

Our textbooks now showcase a structured content in alignment with the **MATATAG Curriculum**. As we usher in the School Year 2024-2025, we are still committed to providing you with quality and curriculum-based educational resources.

Diwa 5G Textbooks LOOK: Enriched Teacher's Manual or Teacher's Guide

The Teacher's Manual is a textbook's comprehensive guide. It includes instructions and suggestions for delivering lessons in blended learning environments.

The manual also contains self-directed offline learning instructions for the students with the help of their parents or guardians.

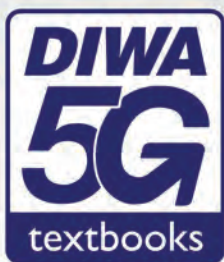

To learn more about Diwa Textbooks,

visit www.diwa.ph/diwa-5g-textbooks or contact the Diwa Sales Representative assigned to your school.

CONFORMS TO THE **MATATAG** CURRICULUM

Preschool Textbooks

The series, which conforms to the **MATATAG Curriculum**, encourages lifelong learning in early childhood. It is composed of Reading, Language, Filipino, Writing, Science, and Mathematics for nursery, kindergarten 1 and 2.

● English for Young Explorers

● Filipino para sa Batang Mapagsiyasat

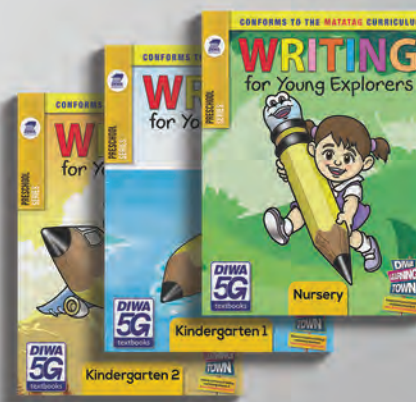

● Math for Young Explorers

● Reading for Young Explorers

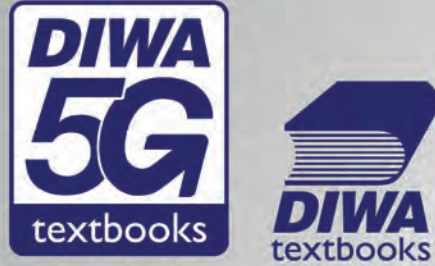

● Science for Young Explorers

● Writing for Young Explorers

MATATAG CURRICULUM COMPLIANT

Grade School Textbooks

Diwa's Grade School textbooks provide learners with lessons and topics that cover all the competencies prescribed in the **MATATAG Curriculum**. Explore our latest offerings from our current titles for Grade School.

New Titles

- **Essential Skills for MAPEH**
Addressing curriculum requirements, the new series aims to develop literacy in Philippine music, arts, culture, and heritage, and focus on achieving health-related fitness (HRF) and optimizing health in grade school learners.

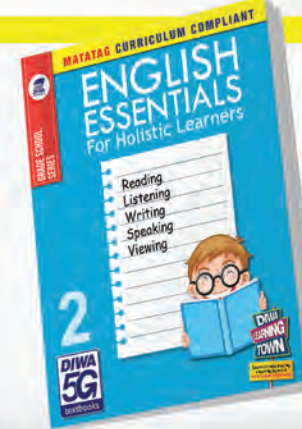

- **Maunlad na Kasanayan sa Edukasyong Pantahanan at Pangkabuhayan**
The textbooks contain the fundamental knowledge in Information and Communication Technology, Agriculture and Fishery Arts, Family and Consumer Science, and Industrial Arts.

- **Gabay sa Mabuting Pag-uugali ng Batang Pilipino**
Ang GMRC serye na ito ay nakatuon sa kagandahang-asal at wastong pag-uugali ng mga mag-aaral. Nakapaloob dito ang mga kasanayang:
 - Pang-Impormasyon, Midya at Teknolohiya, Communication Skills
 - Mga Kasanayan sa Pagkatuto at Inobasyon
 - Life and Career Skills

Diwa 5G Magazines: Supplemental Educational Magazines

These educational magazines contain various articles, stories, and activities that support the lessons in the curriculum-based textbooks.

Each magazine is also designed to be engaging, flexible, accessible, enriching, and relevant to inspire learners to develop new ideas and conduct profound investigations.

NEW

Makabansa

Nagbibigay ito ng karagdagang kaalaman sa magkasamang asignaturang Araling Panlipunan/Sibika at MAPEH (Music, Arts, PE, at Health) ng kapangalan nitong Diwa 5G Textbook. Mayroon itong mga kaalaman na naaayon sa MATATAG Kurikulum.

Digital editions of Supplemental Educational Magazines, as well as additional interactive learning materials, are available at www.diwalearningtown.com.

Grade School Magazines

Salaguinto

As a premiere science magazine, it contains essays and visual aids tackling scientific events, inventions, experiments, and activities to foster innovation and social awareness among learners.

Alitaptap

Nilalayan ng pahayagan na ito na maging bukas ang isipan ng mga batang mag-aaral sa mga kaganapan at isyung nangyayari sa bansa at sa ibang parte ng mundo. Pinapayaman din nito ang kaalaman nila sa kultura at tradisyon ng bansa.

Math Talino

It has nurtured young minds' reasoning and problem-solving skills by featuring mathematical problems in real-life situations.

Abracadabra

Over the years, the magazine has developed young learners' skills in reading and writing in English. It also contains fun, educational games in the context of Philippine culture and literature.

Kaluskos

Bilang babasahin sa Filipino, layunin nitong palalimin at pagyamanin ang kaalaman ng mga kabataan tungkol sa kultura, wika, diyalekto, at panitikan ng Pilipinas.

Hagibis

It is a popular source of fresh, creative ideas for students. It covers themes and topics involving music, arts, physical education, and health. These include fun-filled games, trivia, and exercises.

Click

This magazine is dedicated to developing technology and digital literacy among learners amid the growing digital learning landscape. It also includes articles on basic coding and troubleshooting solutions.

To learn more about Diwa Supplemental Educational Magazines (SEMs), visit www.diwa.ph/diwa-5g-magazines or contact the Diwa Sales Representative assigned to your school.

Bato Balani for Science and Technology

Bato Balani has raised generations of high school students who are well-versed in science and technology. Next year, it will be celebrating its 45 years of exploring scientific discoveries, wonders, and innovations in junior and senior high school.

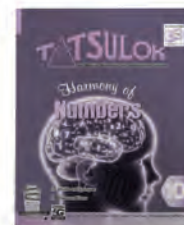

Junior High School Magazines

Damayan

It is one of the widely read social studies magazines for junior high school. It also serves as a reliable reference for world history and current events.

Tatsulok

It is the country's premiere educational magazine in mathematics. It features advanced mathematical drills that hone students' aptitude in problem-solving.

Magica

It is a treasure trove of English literature. It also aims to improve learners' verbal and written communication skills in English.

Tambuli

Bilang babasahin sa Filipino, layunin ng pahayagang ito na palawakin ang kaalaman ng mga mag-aaral sa kultura, wika, diyalekto, at panitikan ng bansa.

Buhawi

It features informative essays and stories tackling music, arts, physical education, and health. It also encourages learners to enjoy and learn new things and skills.

Knowledge in Google Workspace and Microsoft Office is a must.

10-Step Journey into Building a Digital-ready Genyo School

Diwa 5G Systems is Genyo e-Learning, your 21st century school essential.

Our proven e-learning platform, content, and implementation solutions provide administrators and stakeholders with the confidence of an e-learning solution that simply works.

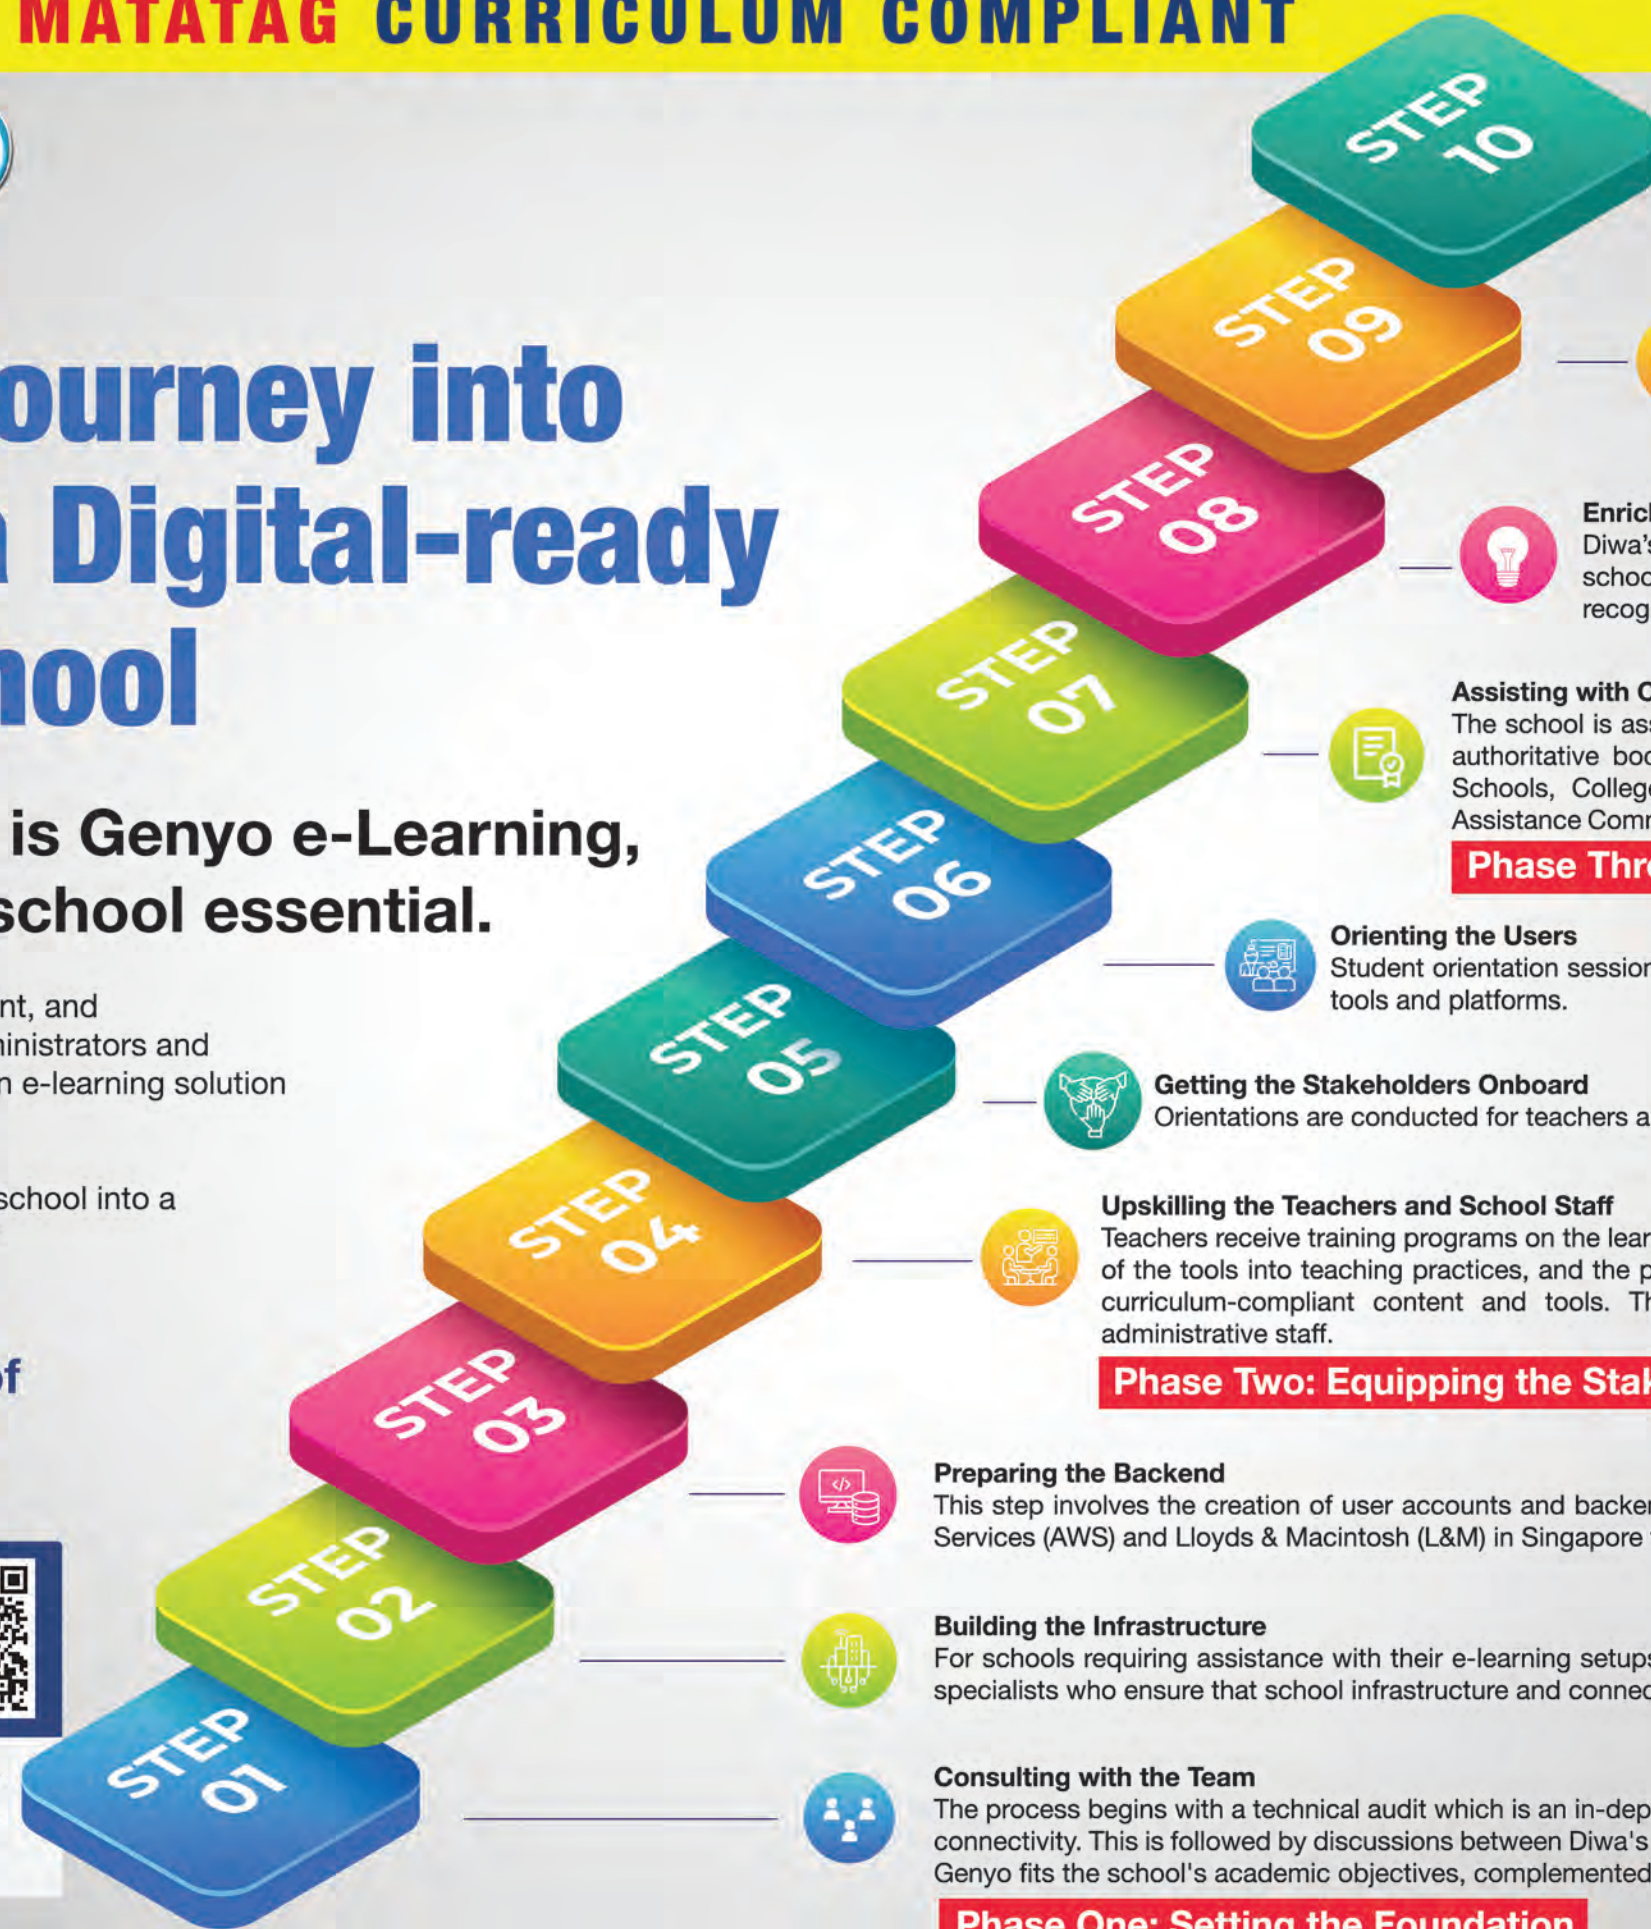

Discover how we can transform your school into a digital-ready school with the power of Genyo e-Learning.

Experience the power of an e-learning program that simply works.

To learn more about Genyo e-Learning,

visit www.diwa.ph/diwa-5g-systems or contact the Diwa Sales Representative assigned to your school.

Conducting Performance Review
The journey concludes with a Genyo Performance Evaluation to assess the effectiveness of the digital integration.

Supporting with Implementation throughout the Year
Learning Integration Specialist (LIS) and Helpdesk Teams are provided to support the ongoing implementation of Genyo.

Enriching the Experience with Creative Programs
Diwa's e-Learning Training Department (eLTD) works with the school to implement intra and interschool programs alongside recognition programs to enrich students' experience.

Assisting with Compliance and Certification
The school is assisted with obtaining certifications and compliance from authoritative bodies such as the Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU), the Private Education Assistance Committee (PEAC), and the Department of Education (DepEd).

Phase Three: Maximizing the Implementation

Orienting the Users
Student orientation sessions are conducted to familiarize them with the new digital tools and platforms.

Getting the Stakeholders Onboard
Orientations are conducted for teachers and parents to engage and inform them about the system.

Upskilling the Teachers and School Staff
Teachers receive training programs on the learning management system (LMS) features, the integration of the tools into teaching practices, and the preparation of lesson packages using Genyo's MATATAG curriculum-compliant content and tools. This includes training programs for non-teaching and administrative staff.

Phase Two: Equipping the Stakeholders

Preparing the Backend
This step involves the creation of user accounts and backend preparation with Genyo's cloud partner Amazon Web Services (AWS) and Lloyds & Macintosh (L&M) in Singapore to ensure system stability and uptime.

Building the Infrastructure
For schools requiring assistance with their e-learning setups, Diwa dispatches a team of infrastructure and network specialists who ensure that school infrastructure and connectivity are firmly in place ahead of the new school year.

Consulting with the Team
The process begins with a technical audit which is an in-depth assessment of the school's existing infrastructure and connectivity. This is followed by discussions between Diwa's product team and the school's academic team to ensure Genyo fits the school's academic objectives, complemented by benchmarking programs.

Phase One: Setting the Foundation

DIWA CHECKBOX

Assessment continues to be a vital component of the teaching and learning experience, especially in addressing learning losses caused by educational disruptions.

As emphasized in the **MATATAG Curriculum**, conducting assessments to inform instruction is essential; hence, schools must continuously find effective ways to assess students' current levels and support their progress and growth.

Mastery Meets Fun

Mastery meets fun with Checkbox, Diwa's gamified diagnostic and mastery portal for the core subject areas. With Checkbox, schools can identify students' baseline skills, empower them to master essential skills, and assess their overall learning—all within a gamified environment.

— For Students

- ✓ **Master essential skills.** Checkbox helps students develop mastery through ready-made tests available on the system, including system-assigned adaptive tests and Diwa Textbook activities.

- **System-assigned Adaptive Tests:** These tests feature questions tagged with a difficulty level, allowing the system to adjust based on the student's answers. Subsequent topics remain locked until a certain number of stars is achieved, promoting skill mastery.

- **Diwa Textbook Activities:** Checkbox offers activities and tests organized by unit and lesson as they appear in Diwa 5G Textbooks.

- ✓ **Get a 24/7 review buddy.** The drills and activities on Checkbox serve as a 24/7 review buddy, helping students become familiar with topics and concepts as they answer.

- ✓ **Earn stars while learning.** Students earn stars upon completing tests. The stars they accumulate over the year help them level up in learning ranks.

- ✓ **Top the Checkbox Leaderboard.** The Checkbox Leaderboard fosters productive virtual interaction among learners by determining their ranking in class, at a specific grade level, and within the school community.

— For Teachers

- ✓ **Create pre-tests to identify students' baseline skills.** Checkbox's test authoring tool allows teachers to create questions for a pre-test and tag them to specific learning competencies following the K-12 and **MATATAG Curriculum**. Teachers can also import questions from the rich question bank on Checkbox.

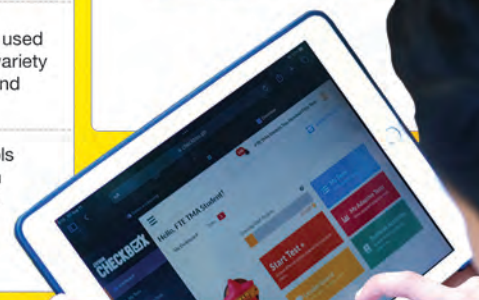

- ✓ **Design reviewers for various assessments.** Checkbox can be used to create reviewers to support a variety of assessments like summative and formative assessments.

- ✓ **Generate insightful reports.** Tools like the Quiz Report and Question Analysis Report provide teachers with insights into students' current performance and their needs.

— For Schools

- ✓ **Equip your teachers with training and orientation.** A teacher training program is conducted before the start of every school year to help schools maximize Checkbox's usage in learning delivery and assessment.

To know more about Checkbox,

visit www.diwa.ph/diwa-5g-assessment or contact the Diwa Sales Representative assigned to your school.

45 Years of Inspiring Young Minds in Science

with **BATO BALANI**[®]
FOR SCIENCE & TECHNOLOGY

Bato Balani for Science and Technology magazine has been the gateway of young minds to the fascinating world of science since 1980. Celebrating its 45 years in publication, Bato Balani has inspired and captivated junior and senior high school learners on topics about science and technology, sparking their curiosity and fostering their love and appreciation of these subjects. It has also nurtured them to discover ways in which science and technology can aid better causes in their communities and the world.

Over the years, Bato Balani has also kept up and introduced different ways to access its content. For junior high school, its printed copies are supplemented by augmented reality through **DIWA SPARK**, a mobile application that can be downloaded via the Google Play Store. Its senior high school issues, meanwhile, are made even better with interactive quizzes and featured videos via www.diwalearningtown.com.

Join us as we celebrate Bato Balani's 45th anniversary and continue bringing education to life for the next generation of scientists and innovators.
